We are excited to announce that one of our keynote speakers is Professor Seifu Kebede Gurmessa. Seifu is the IAH Vice-President for Africa and has published extensively on global groundwater issues and African Hydrogeology. Dr John Cherry intends to host a special session on the groundwater project showcasing African contributions. The Socio-Hydrogeology Network will hold a special session on "THE CONNECTEDNESS OF GROUNDWATER AND HUMAN SYSTEMS". This session aims at discussing

approaches, techniques and case studies focused on inter- and transdisciplinary assessments of the connections between humans and groundwater at different scales. The Socio-Hydrogeology Network invites abstracts in support of the topic.

This year's congress programme includes 5 Field Excursion options for delegates to select from.

IAH2023 has adapted the traditional format of the congress slightly and the Congress will commence with the Field excursion on Monday, 18 September 2023. The excursion will provide delegates the opportunity to meet new colleagues and catch up with old friends during the excursion before the official congress programme commences on Tuesday, 19 September 2023.
